

## Data Formats and Procedures Working Group Meeting Annapolis, MD, USA, October 30, 2014, 17:30 – 18:30

- ✧ Horst welcomes members and guests.
- ✧ Attendees willing to join the working group are asked to send an email directly to Carey Noll.
- ✧ New station change log format
  - Christian reported that the new service is fully operational but only 13 of 53 stations have delivered a new history log up to now.
  - Logs are available [http://edc.dgfi.tum.de/en/stations/xxxx/station\\_log](http://edc.dgfi.tum.de/en/stations/xxxx/station_log), with xxx the station 4 digit CDP pad id. Note that from 2015 DGFI will be part of the Technical University of Munich (TUM) therefore the Web-address has changed.
  - Erricos wanted that the station logs should be identical to content of the CRD-records.
- ✧ CRD status
  - Christian reported of the problems with the T2L2 data which are Jason2 FR-data together with the measurement record from T2L2. But not all FR-data are included, only those connected to a T2L2 measurement.
  - A new directory containing the T2L2 data will be implemented on both data centers.
  - Handling of old corrupt data. Christian reported from problems when he tried to convert old CSTG data into CRD data. Some information is missing, in the old data e.g. Station 4 digit code, and has to be added or ommitted.
  - Randy reported on problems with the CRD for LLR observations.
  - Randy suggested a new C5 record including software version, equipment serial number, ...
  - Randy will set up working group dealing with all unsolved CRD and CPF problems.
- ✧ CPF issues
  - Randy reported on problems with the the current CPF files.
    - Predictions are allowed in inertial frame, which nobody uses.
    - Various start dates in the files
  - Randy suggest the manual should be rewritten, more specifically.
- ✧ Data Flow
  - Both data centers will set up the same quality check till the end of 2014.
  - Station should deliver to both data centers, not yet fully implemented,
- ✧ Study Group on S/W
  - Meeting during the workshop and Poster in the poster session.
  - Separate minutes are available from ILRS.
- ✧ Next meeting: 2015 in Matera

**Participants:**

*Members:*

Jusitine Woo  
Graham Appleby  
Florent Deleflie  
Horst Mueller  
Erricos Pavlis  
Christian Schwatke  
Chris Moore  
Martin Ploner  
Julie Horvath  
Mark Torrence  
Stefan Riepl  
Carey Noll  
Randell Ricklefs  
Magdalena Kuzmicz-Ceslak

*Nonmembers:*

Pierre Exertier  
Daniel König  
Margarita Vei  
Franck Reinquin  
Reed Smith  
Ludwig Grunwaldt  
Xiaoya Wang  
Keith Evans  
Tosimichi Otsubo
