

The astrophysical observing station in Spain.

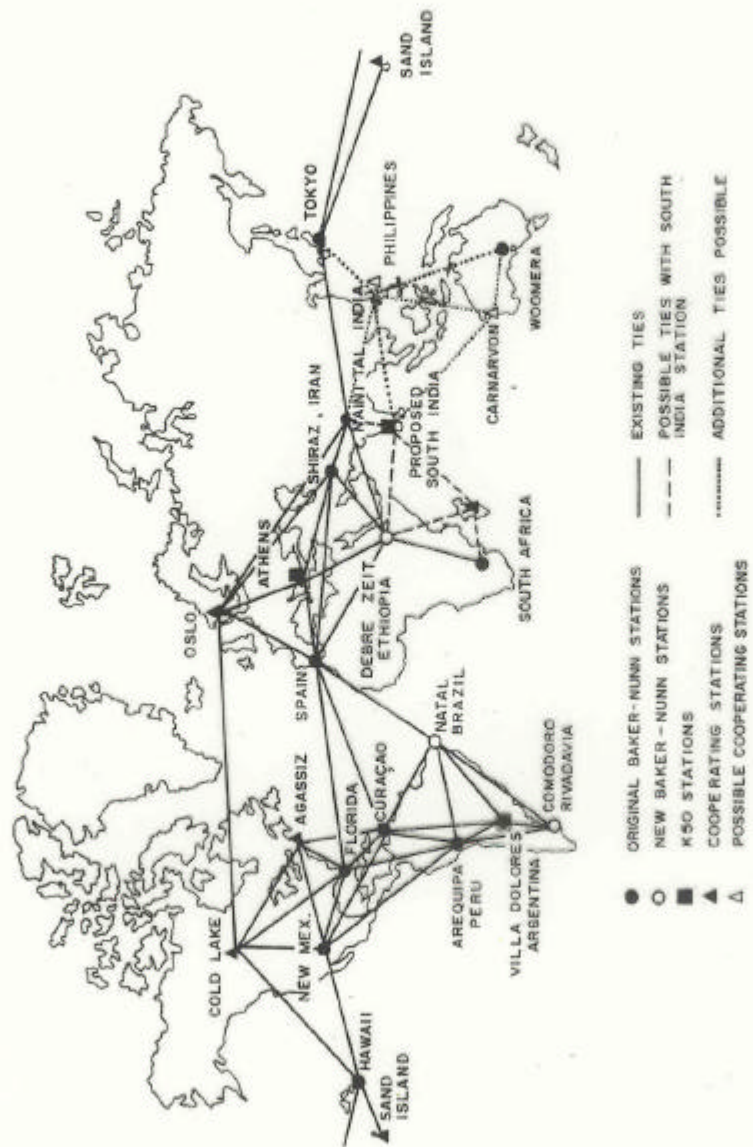

Figure 9. Geometric directions determined from simultaneous observations.

List of Laser Workshops

1.	Lagonissi, Greece	1973
2.	Prague, Czechoslovakia	1975
3.	Lagonissi, Greece	1978
4.	Austin, Texas (USA)	1981
5.	Herstmonceux, UK	1984
6.	Antibes, France	1986
7.	Matera, Italy	1989
8.	Annapolis, MD (USA)	1992
9.	Canberra, Australia	1994
10.	Shanghai, China	1996
11.	Deggendorf, Germany	1998
12.	Matera, Italy	2000
13.	Washington, DC (USA)	2002
14.	San Fernando, Spain	2004

**Fourteenth International Workshop on Laser Ranging
San Fernando, Spain
June 7 - 11, 2004**

List of Sessions

- **Scientific Achievements, Applications, and Future Requirements I**
- **Scientific Achievements, Applications, and Future Requirements II**
- **Lunar Laser Ranging**
- **Improved and Upgraded Systems (Posters)**
- **New Applications**
- **Atmospheric Correction and Multiwavelength Ranging**
- **System Calibration Techniques**
- **Engineering and QC Analysis I**
- **Engineering and QC Analysis II**
- **Automation and Control**
- **Targets, Signatures and Biases I**
- **Targets, Signatures and Biases II**
- **Advanced Systems and Techniques**
- **Operational Issues**
