

Koenig, R., Schreiner, P., Vei, M.

**The ILRS contributions to the TerraSAR-X/TanDEM-X mission and its success**

The poster tries to answer the following questions: - Has the support from the ILRS to your mission been effective? - Did you receive an adequate amount of SLR data? - How will the data be used? - Do you expect SLR support to continue and for how long? - Any other thoughts. The poster is meant for a better understanding of the mission requirements, problems and issues, future plans and needs.
